New FBO Building Project Starts

... Bill Thompson

On a fine Saturday morning in December, the Lakeway Airpark Directors took on a new project. We decided it's time to build a new FBO office... before the existing one falls in on somebody. Bill Thompson volunteered to Chair the project.

The new building will be built on the same site as the old one. It will be constructed using Featherlite masonry and a green metal roof, complimentary to the hangars.

Our goal is to raise \$50,000.00 by donation between now and June 30, 2003. All donations will be put into a separate "Lakeway Airpark FBO Building Fund" account. Donations in any amount are gladly accepted. If, for whatever reason, the project is not built, all donations will be refunded.

Please send your Donations to:

Lakeway Airpark FBO Fund
115 Flying Scott
Lakeway, Texas 78734

Special Note to Hangar Owners:

P. S. – Guys, we really need to make a good showing. We already have \$5,000 to kick it off. Let's show the others what the Hangar Owners are capable of.

Thanks!

Bill Thompson
Lakeway Airpark FBO
Building Chairman

Editor's Note

If you've been out to the Airpark at all in the past couple of years, you KNOW we are in pretty desperate need of a new FBO building. It doesn't have to be fancy, just the basics, nicely done, will suffice. Frankly, the state of the existing FBO building is not a true reflection of the dedication and hard work of Lakeway Airpark Members, and it certainly doesn't convey the image we'd like to have in the community. It's obvious the Board doesn't want to make an assessment or raise dues to cover this expense. Nevertheless, the project needs to get done. We've talked about it for years; it's time to stop talking and start doing. I know (believe me, I know!) that just after the holidays, it's tough to think about shelling out extra bucks for something like this, but we ask for your most generous contribution to help make our Airpark a better, safer, and more appealing place to frequent. Thank you!

Ginger S. Baldwin, Editor
